VOLUME 58 · SUBJECT INDEX

A15A5 cell line, Experimental implantation glioma using the A15A5 cell line **390**

Acalculia, Agraphia and acalculia after a left prefrontal (F1, F2) infarction **629**

Acetylcholine receptor antibody, Familial autoimmune myasthenia gravis **729**

Acoustic neuroma surgery, Study of perioperative lumbar CSF pressure in patients undergoing acoustic neuroma surgery **122**

Acute encephalopathy, Acute necrotising encephalopathy of childhood **555**

Acute hemiconcern, Acute hemiconcern **428**

Adenocarcinoma, Long term course of change in anti-Yo antibody content in paraneoplastic cerebellar degeneration **256**

Adenosine metabolites, Increase in adenosine metabolites in human cerebrospinal fluid after status epilepticus **513**

Adolescence, Amyotrophic cervical myelopathy in adolescence **56**

Adrenomyeloneuropathy, Missense point mutation (Ser515Phe) in the adrenoleukodystrophy gene in a family with adrenomyeloneuropathy **229**

Advance information, Advance information and movement sequencing in Gilles de la Tourette's syndrome **184**

Aetiology, Survival and cause of death in a cohort of patients with parkinsonism **293**

Affective disorders, Stereotactic limbic leucotomy **120**

Aging, Body sway and vibration perception thresholds in normal aging and in patients with polyneuropathy **335**

Agnosia, Ettlinger revisited **350**

Agraphia, Agraphia and acalculia after a left prefrontal (F1, F2) infarction **629**

ALD gene, Missense point mutation (Ser515Phe) in the adrenoleukodystrophy gene in a family with adrenomyeloneuropathy **229**

Alghero, Prevalence of multiple sclerosis in the region of Osona, Catalonia, northern Spain **577**

Alien hand syndrome, Alien hand syndrome without a corpus callosum lesion **735**

Alpers' disease, Progressive neuronal degeneration of childhood with liver disease (Alpers' disease) presenting in young adults **320**

Alternating hemiparesis, Multiphasic disseminated encephalomyelitis presenting as alternating hemiplegia **467**

Alternative diagnosis, Patients with clinically definite multiple sclerosis, white matter abnormalities on MRI, and normal CSF **255**

Alzheimer's disease

Comparison of executive and visuospatial memory function in Huntington's disease and dementia of Alzheimer type matched for degree of dementia **598**

Memory disorders in probable Alzheimer's disease **590**

Verbal fluency in dementia of frontal lobe type and dementia of Alzheimer type **81**

Amnesia, Memory for context but not for content **125**

Amygdala, Memory disorders in probable Alzheimer's disease **590**

Amyloidosis, Hereditary cerebral haemorrhage with amyloidosis, Dutch type (HCHWA-D) **699**

Amyotrophic cervical myelopathy, Amyotrophic cervical myelopathy in adolescence **56**

Amyotrophic lateral sclerosis

Complement alterations in the CSF of patients with amyotrophic lateral sclerosis **393**

Debrisoquine hydroxylase gene polymorphism in Parkinson's disease and amyotrophic lateral sclerosis **109**

Motor neuron disease (amyotrophic lateral sclerosis) arising from longstanding primary lateral sclerosis **742**

Angiotropic large cell lymphoma, Angiotropic large cell lymphoma with mononeuritis multiplex mimicking systemic vasculitis **363**

Anterior parietotemporal syndrome, Acute hemiconcern **428**

Anti-D immunoglobulin, Anti-D immunoglobulin treatment in chronic inflammatory demyelinating polyneuropathy **383**

Anti-GQ1b antibody, Bickerstaff's brainstem encephalitis associated with cytomegalovirus infection **260**

Anti-Yo antibody, Long term course of change in anti-Yo antibody content in paraneoplastic cerebellar degeneration **256**

Anticipation, Anticipatory postural adjustments during self inflicted and predictable perturbations in Parkinson's disease **326**

Antiepileptic drugs, Phenobarbitone, phenytoin, carbamazepine, or sodium valproate for newly diagnosed adult epilepsy **44**

Antiganglioside antibodies, Antianglioside antibodies in the CSF of patients with motor neuron diseases and Guillain-Barré syndrome **519**

Aortic dissection, Painless ischaemic lumbosacral plexopathy and aortic dissection **641**

Apallic syndrome, Sleep abnormalities in traumatic apallic syndrome **484**

Apomorphine, Pen injected apomorphine against off phenomena in late Parkinson's disease **681**

Aprotinin, Hyperfibrinolysis during intracranial surgery **104**

Aqueous humour, Local IgG production in aqueous humour in patients with idiopathic uveitis compared with MRI findings **758**

Arachnoid cyst, Complete remission of narcolepsy after surgical treatment of an arachnoid cyst in the cerebellopontine angle **264**

Arterial oxygen content, Cerebral blood flow and metabolism in children with severe head injuries. Part 2 **153**

Astrocytoma, Expression of platelet derived growth factor and platelet derived growth factor receptor mRNA in a glioblastoma from a patient with Li-Fraumeni syndrome **711**

Ataxia, Low lumbar CSF concentrations of homovanillic acid in the autosomal dominant ataxias **760**

Ataxic hemiparesis, Vascular ataxic hemiparesis **422**

Auditory evoked potentials, Brain stem auditory evoked potentials during cerebellopontine angle surgery **121**

Autoantibodies, Limbic encephalitis and immunological perturbations in two patients with thymoma **706**

Autoantibody, Improved diagnostic assay for Lambert-Eaton myasthenic syndrome **85**

Bacterial meningitis, Nitric oxide production in bacterial meningitis **384**

Basal ganglia calcifications, Musical hallucinations associated with post-thyroidectomy hypoparathyroidism and symmetric basal ganglia calcifications **763**

Basal ganglia tumour, Cervical dystonia as an isolated sign of a basal ganglia tumour **108**

Basal ganglia, Advance information and movement sequencing in Gilles de la Tourette's syndrome **184**

Base pair insertion, Inherited Creutzfeldt-Jakob disease in a British family associated with a novel 144 base pair insertion of the prion protein gene **65**

Basilar artery dissection, Spontaneous basilar artery dissection **540**

Basilar artery occlusion, Thrombolytic treatment for acute occlusion of the basilar artery **227**

Basilar invagination, Trigeminal neuralgia associated with osteogenesis imperfecta **665**

Behçet's disease, Oligoclonal banding of IgG in CSF, blood-brain barrier function, and MRI findings in patients with sarcoidosis, systemic lupus erythematosus, and Behçet's disease involving the nervous system **548**

Bereitschaftspotential, Presence of Bereitschaftspotential preceding psychogenic myoclonus **745**

Bickerstaff's brainstem encephalitis, Bickerstaff's brainstem encephalitis associated with cytomegalovirus infection **260**

Bilateral optic neuritis, Bilateral optic neuritis after hepatitis A **508**

Bilateral pallidostriatal necrosis, Bilateral pallidostriatal necrosis caused by a wasp sting **474**

Bilateral simultaneous optic neuropathy, Bilateral simultaneous optic neuropathy in adults **70**

Blepharospasm, Electromyography and recovery of the blink reflex in involuntary eyelid closure **692**

Blink reflex pathways, Partial restoration of blink reflex function after spinal accessory-facial nerve anastomosis **222**

Blink reflex recovery, Electromyography and recovery of the blink reflex in involuntary eyelid closure **692**

Blink reflex, Somatosensory evoked blink response **95**

Body sway, Body sway and vibration perception thresholds in normal aging and in patients with polyneuropathy **335**

Body temperature, Abnormal circadian rhythms of plasma melatonin and body temperature in the delayed sleep phase syndrome **379**

Body-centric, Is visual neglect body-centric? **262**
Bone graft, Does the use of bop octa provide a suitable alternative to iliac crest autologous bone graft in anterior cervical discectomy and fusion? **117**
Book reviews
Adult Dementias **647**
Aids Knowledge Base **766**
Anesthesia and Neurosurgery, third edition **398**
Bailliere's Clinical Neurology—Inflammatory Neuropathies **765**
Basal Ganglia IV. New Ideas and Data on Structure and Function **396**
Brain injury rehabilitation—clinical considerations **127**
Cavernous Malformations **395**
Current Concepts in Parkinson's Disease Research **396**
Current Diagnosis in Neurology **395**
Current Management of Cerebral Anurysms **395**
Dementia **398**
Dural Arteriovenous Malformation **647**
EEG in Clinical Practice, Second Edition **766**
Experimental Techniques in Human Neuropsychology **765**
Forensic psychiatry **127**
Functioning Neuroimaging—Technical Foundations **647**
Handbook of Myasthenia Gravis and Myasthenic Syndromes **766**
Human Behaviour—An Introduction for Medical Students, Second Edition **766**
Infectious Diseases of the Central Nervous System **398**
Intellectual Functions and the Brain—An Historical Perspective **397**
Introduction to Neuropathology—Second Edition **395**
Introduction to neurosurgery **127**
Introduction to Progressive Supranuclear Palsy **397**
Localization and Neuroimaging in Neuropsychology **647**
Memory, amnesia and the hippocampal system **128**
Movement Disorders III **648**
Multiple Sclerosis. A Current Status of Research and Treatment **396**
Neurobehavioural treatment of epilepsy **269**
Neurobiology of Autism **396**
Neuropsychology of Mental Disorders **397**
Neuropsychology—clinical approach. Third Edition **270**
Paediatric neurology, principles and practice, second edition **128**
Pediatric Neurosurgery. Third Edition **397**
Physiological basis of rehabilitation medicine (second edition) **128**
Searching for the Causes of Schizophrenia **394**
Sexual Dysfunction: A Neuro-Medical Approach **648**
Stroke Prevention **396**
Synaptic plasticity—molecular, cellular, and functional aspects **270**
Botulinum toxin
Successful treatment of intractable tardive dyskinesia with botulinum toxin **511**
Treatment of chronic limb spasticity with botulinum toxin A **232**
Boxing, Magnetic resonance spectroscopic study of parkinsonism related to boxing **688**
Brachial plexus, MR neurography of cervical roots and brachial plexus **123**
Brain death, Prognosis of deeply comatose patients on ventilators **75**
Brain haemorrhage, Headache at stroke onset **490**
Brain imaging, Imaging the adult brain **7**
Brain injury, Sleep abnormalities in traumatic apallic syndrome **484**
Brain interstitial fluid, Reversed drainage of brain interstitial fluid through venular blood-brain barrier **122**
Brain pathology, Death after ecstasy ingestion **756**
Brainstem encephalitis, Somatosensory evoked blink response **95**
Brainstem, Liver dysfunction and probable manganese accumulation in the brainstem and basal ganglia **760**
Bright, Richard Thomas Sydenham and Richard Bright on chorea **319**
Bromate intoxication, Bromate intoxication with polyneuropathy **516**
Bromocriptine, Treatment of paroxysmal symptoms in multiple sclerosis with bromocriptine **253**
Brown's syndrome, Unusual cause for diplopia **506**

C3–4 disc, Midcervical central cord syndrome **607**
Calcitonin gene-related peptide, Intrathecal calcitonin gene-related peptide reduces ischaemic brain damage **119**
Callosal agenesis, Familial frontonasal dermoid cysts with callosal agenesis **116**
Capgras syndrome, Shared delusions of doubles **499**
Carbon monoxide poisoning, Serial proton magnetic resonance spectroscopy in a patient with the interval form of carbon monoxide poisoning **100**
Carotid endarterectomy, Monitoring the high risk group **389**
Carotid occlusion, Dementia associated with bilateral carotid occlusions **633**
Catalonia, Prevalence of multiple sclerosis in the region of Osona, Catalonia, northern Spain **577**
Catatonia, Neuroleptic malignant syndrome **271**
Cause of death, Leukoaraiosis and cause of death **586**
Cavernous sinus thrombosis, Bilateral cavernous sinus thrombosis causing Korsakoff's amnesic syndrome **514**
Central cord syndrome, Midcervical central cord syndrome **607**
Central nervous system, Progressive spinocerebellar degeneration "plus" associated with Langerhans cell histiocytosis **180**
Cerebellar ataxia, Damage to cerebellocortical pathways after closed head injury **433**
Cerebellar dysfunction, Erdheim-Chester disease and slowly progressive cerebellar dysfunction **238**
Cerebellar peduncles, Damage to cerebellocortical pathways after closed head injury **433**
Cerebellopontine angle, Glioependymal cyst of the cerebellopontine angle **109**
Cerebellum
Horizontal eye movement disorders after posterior vermis infarctions **91**
Progressive spinocerebellar degeneration "plus" associated with Langerhans cell histiocytosis **180**
Cerebral aneurysm, Does three dimensional magnetic resonance angiography substitute for conventional angiography in surgical management of ruptured cerebral aneurysm? **118**
Cerebral arteriovenous malformations, Clinical outcome and haemodynamic type of cerebral arteriovenous malformations treated with LINAC radiosurgery **122**
Cerebral blood flow
Cerebral blood flow and metabolism in children with severe head injury. Part 1 **145**
Cerebral blood flow and metabolism in children with severe head injuries. Part 2 **153**
Dementia associated with bilateral carotid occlusions **633**
Effect of extracerebral tissue on non-invasive measurement of cerebral blood flow by near infrared spectroscopy **117**
Effects of decreasing cerebral perfusion pressure on pulsatility of cerebral blood flow velocity **391**
Effects of thiopentone and propofol on middle cerebral artery blood flow velocities in adults **388**
Single photon emission computed tomography in systemic lupus erythematosus with psychiatric symptoms **307**
Cerebral haemorrhage
Hereditary cerebral haemorrhage with amyloidosis, Dutch type (HCHWA-D) **699**
Outcome in patients with large intraventricular haemorrhages **622**
Cerebral infarct, Headache at stroke onset **490**
Cerebral infarction
Crying seizures after cerebral infarction **380**
Ultrasonic evaluation of movement of the diaphragm after acute cerebral infarction **738**
Cerebral metabolism, Assessment of altered cerebral metabolism associated with arteriovenous malformations using in vivo proton MR imaging and water suppressed localised proton spectroscopy **391**
Cerebral near infrared spectroscopy, Cerebral near infrared spectroscopy in adults **389**
Cerebral perfusion pressure, Determination of cerebral perfusion pressure thresholds in head injured patients **387**
Cerebral perfusion, Dementia associated with bilateral carotid occlusions **633**
Cerebrospinal fluid
Cerebrospinal fluid shunt dynamics in patients with idiopathic adult hydrocephalus syndrome **715**
Increase in adenosine metabolites in human cerebrospinal fluid after status epilepticus **513**
Low lumbar CSF concentrations of homovanillic acid in the autosomal dominant ataxias **758**
Patients with clinically definite multiple sclerosis, white matter abnormalities on MRI, and normal CSF **255**
Study of perioperative lumbar CSF pressure in patients undergoing acoustic neuroma surgery **122**

Cerebrovascular resistance, Cerebral blood flow and metabolism in children with severe head injuries. Part 2 **153**
Cervical discectomy, Does the use of bop octa provide a suitable alternative to iliac crest autologous bone graft in anterior cervical discectomy and fusion? **117**
Cervical dystonia, Cervical dystonia as an isolated sign of a basal ganglia tumour **108**
Cervical extradural abscess, Cervical extradural abscess complicating discitis and associated disc prolapse, secondary to a long line infection **510**
Cervical spondylotic myelopathy, Spinal somatosensory potential monitoring in three cases of neurological deterioration after laminectomy for cervical spondylotic myelopathy **113**
Cervicogenic headache, Cervicogenic headache **698**
Charcot joints, Charcot joints **680**
Chickenpox, Chickenpox and multiple sclerosis **637**
Chorea, Thomas Sydenham and Richard Bright on chorea **319**
Chronic fatigue syndrome, Chronic fatigue syndrome **764**
Chronic inflammatory demyelinating polyneuropathy, Anti-D immunoglobulin treatment in chronic inflammatory demyelinating polyneuropathy **383**
Circle of Willis, Embolism across the circle of Willis **517**
Clinical grounds, Prognosis of deeply comatose patients on ventilators **75**
Cloward's anterior cervical fusion, Effect of Cloward's anterior cervical fusion on intervertebral foraminal size **117**
Cluster headache, Familial occurrence of cluster headache **341**
Cognitice behavioural therapy, Chronic fatigue syndrome **764**
Cognition, Comparison of executive and visuospatial memory function in Huntington's disease and dementia of Alzheimer type matched for degree of dementia **598**
Cognitive decline, Which factors predict cognitive decline in Parkinson's disease? **51**
Cognitive deficits, Neuropsychological assessment **655**
Colloid cysts, Endoscopic treatment of colloid cysts **122**
Complement, Complement alterations in the CSF of patients with amyotrophic lateral sclerosis **393**
Compression neuropathy, Focal conduction block in compression neuropathy of the proximal sciatic nerve **471**
Computed tomography
Acute necrotising encephalopathy of childhood **555**
Detection of subarachnoid haemorrhage on early CT **357**
Imaging of the spinal cord **403**
Imaging the adult brain **7**
Leukoaraiosis and cause of death **586**
Single parenchymal brain cysticercus in the acute encephalitic phase **247**
ω-conotoxin, Improved diagnostic assay for Lambert-Eaton myasthenic syndrome **85**
Conversion disorder, Outcome in conversion disorder **750**
Corpus callosum size, Meta-analysis of corpus callosum size in schizophrenia **457**
Corpus callosum, Alien hand syndrome without a corpus callosum lesion **735**
Cortical and subcortical dementia, Verbal fluency in cortical and subcortical dementia **520**
Corticobasal degeneration, Glial cytoplasmic inclusions are not exclusive to multiple system atrophy **262**
Corticosteroid responsive, Selective epileptic gait disorder **371**
Corticosteroid treatment, "Pseudo" hypertrophic neuropathy of childhood **236**
Cranial cervical junction, Complex disorders of the paediatric craniocervical junction **118**
Cranial nerves, Miller Fisher-Guillain-Barré overlap syndrome with enhancing lesions in the spinocerebellar tracts **241**
Craniopharyngioma, Craniopharyngioma **111**
Creutzfeldt-Jakob disease, Inherited Creutzfeldt-Jakob disease in a British family associated with a novel 144 base pair insertion of the prion protein gene **65**
Crying seizures, Crying seizures after cerebral infarction **380**
CSF diversion, CSF diversion in CSF fistulae **645**
CSF fistulae, CSF diversion in CSF fistulae **645**
CSF, Detection of subarachnoid haemorrhage on early CT **357**
Cystic spinal cord, Cystic spinal cord **649**
Cysticercosis, Single parenchymal brain cysticercus in the acute encephalitic phase **247**
Cytochrome *P*-450IID6 mutant gene, Novel cytochrome *P*-450IID6 (CYPIID6) mutant gene associated with multiple system atrophy **263**
Cytomegalovirus, Bickerstaff's brainstem encephalitis associated with cytomegalovirus infection **260**
Dacryosialadenitis, Chronic dacryosialadenitis in HTLV I associated myelopathy **244**
Deafness, Bromate intoxication with polyneuropathy **516**
Delayed sleep phase syndrome, Abnormal circadian rhythms of plasma melatonin and body temperature in the delayed sleep phase syndrome **379**
Delusions of doubles, Shared delusions of doubles **499**
Dementia of frontal lobe type, Verbal fluency in dementia of frontal lobe type and dementia of Alzheimer type **81**
Dementia, Neuropsychiatric aspects of HIV infection **399**
Demyelination, Central nervous system demyelination after vaccination against hepatitis B and HLA haplotype **758**
Denervated muscle, MRI signal changes in denervated muscle **123**
Depression, Neuropsychological impairments in chronic fatigue syndrome, multiple sclerosis, and depression **38**
Dermoid cysts, Familial frontonasal dermoid cysts with callosal agenesis **116**
Diagnostic criteria, Progressive supranuclear palsy **167**
Diaphragm, Electrophysiological study of diaphragmatic myoclonus **480**
Diaphragmatic movement, Ultrasonic evaluation of movement of the diaphragm after acute cerebral infarction **738**
Digital radiography magnetic resonance imaging, Imaging the adult brain **7**
Diplopia, Unusual cause for diplopia **506**
Disabilities and handicaps, Handicap one year after a stroke **268**
Disability, Brain magnetic resonance imaging and multimodal evoked potentials in benign and secondary progressive multiple sclerosis **31**
Disc prolapse, Cervical extradural abscess complicating discitis and associated disc prolapse, secondary to a long line infection **510**
Diseases of the spinal cord, Imaging of the spinal cord **403**
DNA polymorphisms, Loss of heterozygosity for DNA polymorphisms mapping to chromosomes 10 and 17 and prognosis in patients with gliomas **218**
Dopamine antagonism, Kava and dopamine antagonism **639**
Doppler, Transcranial Doppler and angiographic findings in adolescent stretch syncope **367**
Dural venous sinus thrombosis, Progressive dural venous sinus thrombosis treated with local streptokinase infusion **107**
Dystonia, Electromyography and recovery of the blink reflex in involuntary eyelid closure **692**
Dystonic phenomena, Selective epileptic gait disorder **371**

Ecstasy (3,4-methylenedioxymethamphetamine) ingestion, Death after ecstasy ingestion **756**
Electrocardiography, Noradrenaline concentrations and electrocardiographic abnormalities after aneurysmal subarachnoid haemorrhage **614**
Electroconvulsive therapy, Electroconvulsive therapy for the physical signs of Parkinson's disease without depressive disorder **641**
Electroencephalography
Painful paroxysmal dystonia associated with focal epileptic activity **257**
Preoperative EEG predicts memory and selective cognitive functions after temporal lobe surgery **674**
Electromyogram, Anticipatory postural adjustments during self inflicted and predictable perturbations in Parkinson's disease **326**
Electromyography, Treatment of spasmodic torticollis with intramuscular phenol injection **258**
Electrophysiology, Electrophysiological study of diaphragmatic myoclonus **480**
Embolism, Embolism across the circle of Willis **517**
Encephalopathy, Rhabdomyolysis and acute encephalopathy in late onset medium chain acyl-CoA dehydrogenase deficiency **209**
Endothelin antagonists, Possible therapeutic role for endothelin antagonists **119**
Endothelins, What is the relevance of the endothelins in subarachnoid haemorrhage? **392**
Enterogenous cysts, Double intraspinal enterogenous cysts **110**
Epidemiology, Onset symptoms of multiple sclerosis **253**
Epilepsy surgery, Multiple subpial transection **344**
Epilepsy
Elementary visual hallucinations in migraine and epilepsy **518**
Epilepsy in a population of 6000 re-examined **570**
Incidence of sudden unexpected death in an adult outpatient

cohort with epilepsy at a tertiary referral centre **462**
Phenobarbitone, phenytoin, carbamazepine, or sodium valproate for newly diagnosed adult epilepsy **44**
Preoperative EEG predicts memory and selective cognitive functions after temporal lobe surgery **674**
Psychosocial factors in chronicity of epilepsy **112**
Surgical treatment of temporal lobe epilepsy **666**
Epileptic seizures, Propranolol in startle induced epileptic seizures **382**
Erdheim-Chester disease, Erdheim-Chester disease and slowly progressive cerebellar dysfunction **238**
Event related potentials, Event related potentials in the assessment of traumatic coma **387**
Extratemporal epilepsies, Ictal SPECT as a localising investigation in extratemporal epilepsies **119**
Eye movements, Horizontal eye movement disorders after posterior vermis infarctions **91**
Eyelid opening apraxia, Eyelid opening apraxia in focal cortical degeneration **508**

Facial nerve function, Long term facial nerve function after acoustic neuroma surgery **121**
Facial nerve repair
Intracranial repair of the facial nerve using a freeze-thawed muscle graft **386**
Laboratory assessment of fibrin adhesive as a method of nerve repair **386**
Familial aggregation, Familial occurrence of cluster headache **341**
Familial myasthenia gravis, Familial autoimmune myasthenia gravis **729**
Fast spin echo, High resolution magnetic resonance imaging of the anterior visual pathway in patients with optic neuropathies using fast spin echo and phased array local coils **562**
Fat suppression, High resolution magnetic resonance imaging of the anterior visual pathway in patients with optic neuropathies using fast spin echo and phased array local coils **562**
Fatigue syndrome, Neuropsychological impairments in chronic fatigue syndrome, multiple sclerosis, and depression **38**
Fibrin adhesive, Laboratory assessment of fibrin adhesive as a method of nerve repair **386**
Fibrinolysis, Thrombolytic treatment for acute occlusion of the basilar artery **227**
Fluid attenuated inversion recovery sequence (FLAIR), Magnetic resonance imaging in partial epilepsy **439**
Focal conduction block, Focal conduction block in compression neuropathy of the proximal sciatic nerve **471**
Focal cortical degeneration, Eyelid opening apraxia in focal cortical degeneration **508**
Focal cortical injury, Changes in microvascular permeability in a rodent model of focal cortical injury using ^{14}C AIB autoradiography **119**
Focal epileptic activity, Painful paroxysmal dystonia associated with focal epileptic activity **257**
Folie à deux, Shared delusions of doubles **499**
Free radical mediated damage, Effect of isoflurane on free radical mediated damage to brain tissue in vitro **388**
Frontal lobes, Advance information and movement sequencing in Gilles de la Tourette's syndrome **184**
Frontotemporal dementia, Inter-relation between "classic" motor neuron disease and frontotemporal dementia **541**
Functional magnetic resonance imaging, Imaging the head **132**

Gene polymorphism, Debrisoquine hydroxylase gene polymorphism in Parkinson's disease and amyotrophic lateral sclerosis **109**
Genetic studies, Bilateral simultaneous optic neuropathy in adults **70**
Genetics, Familial occurrence of cluster headache **341**
Gerontology, Neurosurgery and gerontology **123**
Ginkgolide B, Double blind placebo controlled multicentre study of ginkgolide B in treatment of acute exacerbations of multiple sclerosis **360**
Glasgow outcome scale
How good is good on the Glasgow outcome scale after subarachnoid haemorrhage? **122**
Outcome of post-traumatic unawareness persisting for more than a month **465**
Glial cytoplasmic inclusions, Glial cytoplasmic inclusions are not exclusive to multiple system atrophy **262**
Glioependymal cyst, Glioependymal cyst of the cerebellopontine angle **109**
Glioma
Loss of heterozygosity for DNA polymorphisms mapping to chromosomes 10 and 17 and prognosis in patients with gliomas **218**
Use of PET in evaluating patients with primary brain tumours **250**
Global cerebral ischaemia, Experimental model of global cerebral ischaemia induced by profound hypotension based on a computer driven closed loop system **387**
Glucose metabolism, Changes in metabolism of cerebral glucose after stereotactic leukotomy for refractory obsessive-compulsive disorder **502**
Guillain-Barré syndrome, Miller Fisher-Guillain-Barré overlap syndrome with enhancing lesions in the spinocerebellar tracts **241**

Haemoglobin, Monitoring of intracranial oxy and deoxyhaemoglobin levels in head injured patients using near infrared spectroscopy **116**
Hand preference, Does hemispheric dominance influence brain lesion distribution in multiple sclerosis? **748**
Handicap after stroke, Handicap one year after a stroke **268**
Head injury
Cerebral blood flow and metabolism in children with severe head injury. Part 1 **145**
Cerebral blood flow and metabolism in children with severe head injuries. Part 2 **153**
Cerebral haemodynamic and metabolic effects of the non-competitive NMDA antagonist CNS 1102 in humans with severe head injury **386**
Determination of cerebral perfusion pressure thresholds in head injured patients **387**
Head injury **526**
Intracranial pressure waveform indices correlate with cerebral perfusion pressure but fail to predict efficacy of mannitol therapy for raised ICP **387**
Monitoring of intracranial oxy and deoxyhaemoglobin levels in head injured patients using near infrared spectroscopy **116**
Outcome of post-traumatic unawareness persisting for more than a month **465**
Receiver operator characteristic (ROC) curves **386**
Use of guidelines for head injury management in Scotland **116**
Head trauma, Prescribing of potentially harmful drugs to patients admitted to hospital after head injury **753**
Headache
Focal neurological deficits and migraine at high altitude **637**
Headache at stroke onset **490**
Sumatriptan and daily headache **510**
Hearing Loss, Hearing loss as a false localising sign in raised intracranial pressure **516**
Hemiballism, Hemiballism in Parkinson's disease **645**
Hemispheric dominance, Does hemispheric dominance influence brain lesion distribution in multiple sclerosis? **748**
Hemispheric neoplasms, Anatomicofunctional correlates of language disorders in dominant hemispheric neoplasms: a prospective study **390**
Hepatitis A, Bilateral optic neuritis after hepatitis A **508**
Hepatitis B, Central nervous system demyelination after vaccination against hepatitis B and HLA haplotype **758**
Hereditary motor neuropathy, Myelin gene dosage and mutation in the hereditary motor and sensory neuropathies **523**
Hereditary sensory neuropathy, Myelin gene dosage and mutation in the hereditary motor and sensory neuropathies **523**
High altitude, Focal neurological deficits and migraine at high altitude **637**
Hippocampal formation, Memory disorders in probable Alzheimer's disease **590**
Histiocytosis, Erdheim-Chester disease and slowly progressive cerebellar dysfunction **238**
Histology, Simple histological method for the early detection of neuronal damage in vivo **391**
Histopathology, Surgical treatment of temporal lobe epilepsy **666**
Historical development, Psychiatry and neuropathology **284**
HIV, Neuropsychiatric aspects of HIV infection **399**
HLA haplotype, Central nervous system demyelination after vaccination against hepatitis B and HLA haplotype **758**
HLA, Familial autoimmune myasthenia gravis **729**
HMPAO, Unilateral hypotonic seizures successfully diagnosed by ictal SPECT with technetium-99m-HMPAO in a patient with a brain tumour **509**

Horner's syndrome, Pholedrine **215**
HTLV I associated myelopathy, Chronic dacryosialadenitis in HTLV I associated myelopathy **244**
Human immunoglobulin, Are muscle cramps in Isaacs' syndrome triggered by human immunoglobulin? **393**
Huntington's disease
Comparison of executive and visuospatial memory function in Huntington's disease and dementia of Alzheimer type matched for degree of dementia **598**
Impaired prepulse inhibition of acoustic and tactile startle response in patients with Huntington's disease **192**
Molecular diagnostic analysis for Huntington's disease **496**
Hybridisation study, Pathogenesis of peridural fibrosis—a macroscopic, microscopic, and in situ hybridisation study **117**
Hydrocephalus, Cerebrospinal fluid shunt dynamics in patients with idiopathic adult hydrocephalus syndrome **715**
Hydroxyamphetamine, Pholedrine **215**
Hyperfibrinolysis, Hyperfibrinolysis during intracranial surgery **104**
Hyperglycaemia, Mendenhall's syndrome **493**
Hypersomnolence, Hypersomnolence in myotonic dystrophy **512**
Hypofrontality, Hypofrontality revisited **452**
Hypotonic seizure, Unilateral hypotonic seizures successfully diagnosed by ictal SPECT with technetium-99m-HMPAO in a patient with a brain tumour **509**

Ictal hemiplegia, Pupillary dilatation and arm weakness as negative ictal phenomena **261**
Idiopathic orbital inflammation, Idiopathic orbital inflammation (orbital inflammatory pseudotumour) **88**
Idiopathic torsion dystonia, Kinematic properties of upper limb trajectories in idiopathic torsion dystonia **312**
Idiosycratic reaction, Neuroleptic malignant syndrome **271**
IgG, Oligoclonal banding of IgG in CSF, blood-brain barrier function, and MRI findings in patients with sarcoidosis, systemic lupus erythematosus, and Behçet's disease involving the nervous system **548**
Image directed spine surgery, Image directed surgery of the spine **123**
Immunoassay, Improved diagnostic assay for Lambert-Eaton myasthenic syndrome **85**
Immunoglobulin production, Local IgG production in aqueous humour in patients with idiopathic uveitis compared with MRI findings **758**
Implantation glioma, Experimental implantation glioma using the A15A5 cell line **390**
Incidence, Post-traumatic syringomyelia **520**
Increased cerebral oxygenation, Extracerebral absorption of near infrared light influences the detection of increased cerebral oxygenation monitored by near infrared spectroscopy **477**
Infection, Comparison of rates of infection of two methods of emergency ventricular drainage **444**
Inflammatory demyelinating neuropathy, "Pseudo" hypertrophic neuropathy of childhood **236**
Inflammatory demyelinating polyneuropathy, Interferon-α may benefit steroid unresponsive chronic inflammatory demyelinating polyneuropathy **638**
Injury to the spinal cord, Imaging of the spinal cord **403**
Institute of Neurology, British neurology: a national focus **394**
Interferon-α, Interferon-α may benefit steroid unresponsive chronic inflammatory demyelinating polyneuropathy **638**
International classification of impairments, Handicap one year after a stroke **268**
Intervertebral foramen, Effect of Cloward's anterior cervical fusion on intervertebral foraminal size **117**
Intracerebral haemorrhage, Intraventricular recombinant tissue plasminogen activator for lysis of intraventricular haemorrhage **447**
Intracranial aneurysms, Giant Intracranial aneurysms **122**
Intracranial haematoma, Neuropathology of subacute experimental intracerebral haematoma **388**
Intracranial pressure, Cerebral blood flow and metabolism in children with severe head injury. Part 1 **145**
Intracranial surgery, Hyperfibrinolysis during intracranial surgery **104**
Intracranial tumours, Incidence of intracranial tumours in Lothian region **121**
Intractable epilepsy, Correlation between pre-operative MRI diagnosis and histological findings in patients undergoing surgery for intractable epilepsy **120**
Intraspinal location of cysts, Double intraspinal enterogenous cysts **110**
Intrathecal calcitonin gene related peptide, Effects of intrathecal calcitonin gene related peptide on ischaemic brain injury **389**
Intraventricular blood, Outcome in patients with large intraventricular haemorrhages **622**
Intraventricular haemorrhage, Intraventricular recombinant tissue plasminogen activator for lysis of intraventricular haemorrhage **447**
Isaacs' syndrome, Are muscle cramps in Isaacs' syndrome triggered by human immunoglobulin? **393**
Ischaemic attack, Idiopathic orbital inflammation (orbital inflammatory pseudotumour) **88**
Ischaemic brain damage, Intrathecal calcitonin gene-related peptide reduces ischaemic brain damage **119**
ISG viewing wand, Image directed surgery of the spine **123**
Isoflurane, Effect of isoflurane on free radical mediated damage to brain tissue in vitro **388**

Jackson, Hughlings, Hughlings Jackson and the Holmes-Adie tonic pupil **87**
Jarisch-Herxheimer reaction, Jarisch-Herxheimer reaction in a patient with neurosyphilis **521**
Jerk-locked back averaging, Presence of Bereitschaftspotential preceding psychogenic myoclonus **745**

Kava, Kava and dopamine antagonism **639**
Kinematic properties, Kinematic properties of upper limb trajectories in idiopathic torsion dystonia **312**
Korsakoff's amnesic syndrome, Bilateral cavernous sinus thrombosis causing Korsakoff's amnesic syndrome **514**

Lactate, Abnormal lactate after effort in healthy carriers of Leber's hereditary optic neuropathy **640**
Lacunar infarction, Vascular ataxic hemiparesis **422**
Lambert-Eaton myasthenic syndrome, Improved diagnostic assay for Lambert-Eaton myasthenic syndrome **85**
Laminectomy, Spinal somatosensory potential monitoring in three cases of neurological deterioration after laminectomy for cervical spondylotic myelopathy **113**
Landau-Kleffner syndrome
Multiple subpial transection **344**
Selective epileptic gait disorder **371**
Langerhans cell histiocytosis, Progressive spinocerebellar degeneration "plus" associated with Langerhans cell histiocytosis **180**
Language disorders, Anatomicofunctional correlates of language disorders in dominant hemispheric neoplasms: a prospective study **390**
Leber's hereditary optic neuropathy, Abnormal lactate after effort in healthy carriers of Leber's hereditary optic neuropathy **640**
Leukoaraiosis, Leukoaraiosis and cause of death **586**
Lewy body, Lewy body dysphagia **756**
Li-Fraumeni syndrome, Expression of platelet derived growth factor and platelet derived growth factor receptor mRNA in a glioblastoma from a patient with Li-Fraumeni syndrome **711**
Life expectancy, Prognostic factors for survival in multiple sclerosis **417**
Limbic encephalitis, Limbic encephalitis and immunological perturbations in two patients with thymoma **706**
Limbic leucotomy, Stereotactic limbic leucotomy **120**
Liver disease, Progressive neuronal degeneration of childhood with liver disease (Alpers' disease) presenting in young adults **320**
Liver dysfunction, Liver dysfunction and probable manganese accumulation in the brainstem and basal ganglia **760**
London handicap scale, Validity of the London handicap scale **125**
Lower level visual impairments, Ettlinger revisited **350**
Lumbar disc herniation, Lateral branch of the posterior primary ramus—key for the posterolateral approach to extreme lateral lumbar disc herniations **117**
Lumbar puncture, Detection of subarachnoid haemorrhage on early CT **357**
Lymphocytic meningitis, Papilloedema and lymphocytic meningitis in a 68 year old man **374**

Magnetic resonance angiography
Does three dimensional magnetic resonance angiography substitute for conventional angiography in surgical management of ruptured cerebral aneurysm **118**
Magnetic resonance angiography in the management of aneurysmal subarachnoid haemorrhage **118**
Preoperative diagnosis of neurovascular compression of the trigeminal nerve using magnetic resonance tomoangiography **120**
Magnetic resonance imaging
Bilateral simultaneous optic neuropathy in adults **70**
Brain magnetic resonance imaging and multimodal evoked potentials in benign and secondary progressive multiple sclerosis **31**
Cervical dystonia as an isolated sign of a basal ganglia tumour **108**
Correlation between pre-operative MRI diagnosis and histological findings in patients undergoing surgery for intractable epilepsy **120**
Cystic spinal cord **649**
Damage to cerebellocortical pathways after closed head injury **433**
Does hemispheric dominance influence brain lesion distribution in multiple sclerosis? **748**
High resolution magnetic resonance imaging of the anterior visual pathway in patients with optic neuropathies using fast spin echo and phased array local coils **562**
Idiopathic orbital inflammation (orbital inflammatory pseudotumour) **88**
Imaging of the spinal cord **403**
Low lumbar CSF concentrations of homovanillic acid in the autosomal dominant ataxias **760**
Magnetic resonance imaging in partial epilepsy **439**
Memory disorders in probable Alzheimer's disease **590**
MR[1] signal changes in denervated muscle **123**
Multiphasic disseminated encephalomyelitis presenting as alternating hemiplegia **467**
Oligoclonal banding of IgG in CSF, blood-brain barrier function, and MRI findings in patients with sarcoidosis, systemic lupus erythematosus, and Behçet's disease involving the nervous system **548**
Patients with clinically definite multiple sclerosis, white matter abnormalities on MRI, and normal CSF **255**
Raymond syndrome (alternating abducent hemiplegia) caused by a small haematoma at the medial pontomedullary junction **261**
Serial proton magnetic resonance spectroscopy in a patient with the interval form of carbon monoxide poisoning **100**
Spontaneous basilar artery dissection **540**
Surgical treatment of temporal lobe epilepsy **666**
Tuberculous myelopathy **259**
Use of PET in evaluating patients with primary brain tumours **250**
Magnetic resonance neurography, MR neurography of cervical roots and brachial plexus **123**
Magnetic resonance spectroscopy
Changes in proton MRS of peritumoural oedema before and after dexamethasone **121**
Magnetic resonance spectroscopic study of parkinsonism related to boxing **688**
Malignant angioendotheliomatosis, Angiotropic large cell lymphoma with mononeuritis multiplex mimicking systemic vasculitis **363**
Malignant brain tumours, Thallium and HMPAO SPECT evaluation of malignant brain tumours **121**
Malignant glioma, Mechanisms of drug resistance in malignant glioma **390**
Manganese, Liver dysfunction and probable manganese accumulation in the brainstem and basal ganglia **760**
Mannitol treatment, Intracranial pressure waveform indices correlate with cerebral perfusion pressure but fail to predict efficacy of mannitol therapy for raised ICP **387**
Medium chain acyl-CoA dehydrogenase deficiency, Rhabdomyolysis and acute encephalopathy in late onset medium chain acyl-CoA dehydrogenase deficiency **209**
Melkersson's syndrome, Melkersson's syndrome **340**
Memory assessment, Neuropsychological assessment **655**
Memory
Memory disorders in probable Alzheimer's disease **590**
Preoperative EEG predicts memory and selective cognitive functions after temporal lobe surgery **674**
Meningiomas, Further in vitro studies of the effects of photodynamic treatment in meningiomas **390**
Meta-analysis, Meta-analysis of corpus callosum size in schizophrenia **457**
Methyl bromide, Methyl bromide induced neuropathy **383**
Microadenomectomy, Efficacy of operation for microprolactinoma **122**
Microangiopathy, Mendenhall's syndrome **493**
Microprolactinoma, Efficacy of operation for microprolactinoma **122**
Middle cerebral artery, Effects of thiopentone and propofol on middle cerebral artery blood flow velocities in adults **388**
Migraine
Elementary visual hallucinations in migraine and epilepsy **518**
Focal neurological deficits and migraine at high altitude **637**
Miller Fisher syndrome
Miller Fisher-Guillain-Barré overlap syndrome with enhancing lesions in the spinocerebellar tracts **241**
Somatosensory evoked blink response **95**
Molecular diagnostic analysis, Molecular diagnostic analysis for Huntington's disease **496**
Molecular genetic analysis, Missense point mutation (Ser515Phe) in the adrenoleukodystrophy gene in a family with adrenomyeloneuropathy **229**
Monoamines, Low lumbar CSF concentrations of homovanillic acid in the autosomal dominant ataxias **760**
Mononeuritis multiplex, Angiotropic large cell lymphoma with mononeuritis multiplex mimicking systemic vasculitis **363**
Monotherapy trial, Phenobarbitone, phenytoin, carbamazepine, or sodium valproate for newly diagnosed adult epilepsy **44**
Mortality, Incidence of sudden unexpected death in an adult outpatient cohort with epilepsy at a tertiary referral centre **462**
Motor neuron disease
Antianglioside antibodies in the CSF of patients with motor neuron diseases and Guillain-Barré syndrome **519**
Continuous response variable trial design in motor neuron disease **201**
Inter-relation between "classic" motor neuron disease and frontotemporal dementia **541**
Motor neuron disease **269**
Motor symptoms, Which factors predict cognitive decline in Parkinson's disease? **51**
Movement disorders, Neurology in literature **74**
Multiphasic disseminated encephalomyelitis, Multiphasic disseminated encephalomyelitis presenting as alternating hemiplegia **467**
Multiple sclerosis
Brain magnetic resonance imaging and multimodal evoked potentials in benign and secondary progressive multiple sclerosis **31**
Chickenox and multiples sclerosis **637**
Does hemispheric dominance influence brain lesion distribution in multiple sclerosis? **748**
Double blind placebo controlled multicentre study of ginkgolide B in treatment of acute exacerbations of multiple sclerosis **360**
Evidence for increased nitric oxide production in multiple sclerosis **107**
Multiphasic disseminated encephalomyelitis presenting as alternating hemiplegia **467**
Multiple sclerosis in island populations **22**
Multiple sclerosis in the Parsis **254**
Multivariate analysis of predictive factors of multiple sclerosis course with a validated method to assess clinical events **300**
Neurofibromatosis 1 and multiple sclerosis **582**
Neuropsychological impairments in chronic fatigue syndrome, multiple sclerosis, and depression **38**
New treatment of spasticity with repetitive magnetic stimulation in multiple sclerosis **254**
Onset symptoms of multiple sclerosis **253**
Patients with clinically definite multiple sclerosis, white matter abnormalities on MRI, and normal CSF **255**
Prevalence of multiple sclerosis in the region of Osona, Catalonia, northern Spain **577**
Prevalence survey of multiple sclerosis in Sussex **27**
Prognostic factors for survival in multiple sclerosis **417**
Surveying multiple sclerosis in the United Kingdom **2**
Treatment of paroxysmal symtoms in multiple sclerosis with bromocriptine **253**
Multiple subpial transection, Multiple subpial transection **344**
Multiple system atrophy
Clinicopathological study of 35 cases of multiple system atrophy **160**
Glial cytoplasmic inclusions are not exclusive to multiple system atrophy **262**
Nerve conduction studies, skeletal muscle EMG, and sphincter EMG in multiple system atrophy **618**
Novel cytochrome *P*-450IID6 (CYPIID6) mutant gene associated

with multiple system atrophy **263**
REM sleep behaviour disorder as the presenting symptom of multiple system atrophy **379**
Multivariate analysis, Multivariate analysis of predictive factors of multiple sclerosis course with a validated method to assess clinical events **300**
Muscle cramps, Are muscle cramps in Isaacs' syndrome triggered by human immunoglobulin? **393**
Muscle graft, Peripheral nerve repair using a freeze-thawed autologous muscle graft **388**
Musical hallucinations, Musical hallucinations associated with post-thyroidectomy hypoparathyroidism and symmetric basal ganglia calcifications **763**
Mutations, Inherited Creutzfeldt-Jakob disease in a British family associated with a novel 144 base pair insertion of the prion protein gene **65**
Myelin gene dosage, Myelin gene dosage and mutation in the hereditary motor and sensory neuropathies **523**
Myelin gene mutation, Myelin gene dosage and mutation in the hereditary motor and sensory neuropathies **523**
Myoclonus, Electrophysiological study of diaphragmatic myoclonus **480**
Myotonic dystrophy, Hypersomnolence in myotonic dystrophy **512**

Narcolepsy, Complete remission of narcolepsy after surgical treatment of an arachnoid cyst in the cerebellopontine angle **264**
National Hospital, British Neurology: a national focus **394**
Near infrared spectroscopy
Effect of extracerebral tissue on non-invasive measurement of cerebral blood flow by near infrared spectroscopy **117**
Extracerebral absorption of near infrared light influences the detection of increased cerebral oxygenation monitored by near infrared spectroscopy **477**
Neglect, Neglect of radial and vertical space **724**
Neocortical lesional epilepsy, Frameless stereotactic surgery for neocortical lesional epilepsy **120**
Nerve hypertrophy, "Pseudo" hypertrophic neuropathy of childhood **236**
Nerve repair, Peripheral nerve repair using a freeze-thawed autologous muscle graft **388**
Neurocysticercosis, Single parenchymal brain cysticercus in the acute encephalitic phase **247**
Neurofibromatosis 1, Neurofibromatosis 1 and multiple sclerosis **582**
Neurogenic dysphagia, Lewy body dysphagia **756**
Neuroleptic drugs, Exacerbation of postural tremor with emergence of parkinsonism after treatment with neuroleptic drugs **487**
Neuroleptic malignant syndrome, Neuroleptic malignant syndrome **271**
Neurological investigation, Investigation of peripheral neuropathy **274**
Neurological management, Head injury **526**
Neurological practice, Somatisation in neurological practice **393**
Neuroma surgery, Long term facial nerve function after acoustic neuroma surgery **121**
Neuronal damage, Simple histological method for the early detection of neuronal damage in vivo **391**
Neuronal plasticity, Partial restoration of blink reflex function after spinal accessory-facial nerve anastomosis **222**
Neuropathology
Progressive supranuclear palsy **167**
Psychiatry and neuropathology **284**
Neuropathy
Mendenhall's syndrome **493**
Methyl bromide induced neuropathy **383**
Neuropsychiatry
Neuropsychiatric aspects of HIV infection **399**
Proceedings of the winter meeting of the British Neuropsychiatric Association, London Zoo (Regent's Park, 20 January 1995) **643**
Neuropsychological assessment, Neuropsychological assessment **655**
Neuropsychological impairments, Neuropsychological impairments in chronic fatigue syndrome, multiple sclerosis, and depression **38**
Neurosurgery, Neurosurgery and gerontology **123**
Neurosyphilis, Jarisch-Herxheimer reaction in a patient with neurosyphilis **521**
Neurotropic malignant melanoma, Neurotropic malignant melanoma presenting as a trigeminal sensory neuropathy **381**
Nitric oxide
Evidence for increased nitric oxide production in multiple sclerosis **107**
Nitric oxide production in bacterial meningitis **384**
NMDA antagonist, Cerebral haemodynamic and metabolic effects of the non-competitive NMDA antagonist CNS 1102 in humans with severe head injury **386**
Non-convulsive status epicepticus, Jarisch-Herxheimer reaction in a patient with neurosyphilis **521**
Noradrenaline, Noradrenaline concentrations and electrocardiographic abnormalities after aneurysmal subarachnoid haemorrhage **614**
Normal pressure hydrocephalus, Three decades of normal pressure hydrocephalus: are we wiser now? **520**
Numb and clumsy hands, Midcervical central cord syndrome **607**

Obsessive-compulsive disorder, Changes in metabolism of cerebral glucose after stereotactic leukotomy for refractory obsessive-compulsive disorder **502**
Oligodendrocyte-myelin glycoprotein, Neurofibromatosis 1 and multiple sclerosis **582**
Olivopontocerebellar atrophy, Clinicopathological study of 35 cases of multiple system atrophy **160**
Onset symptoms, Onset symptoms of multiple sclerosis **253**
Optic neuropathy, High resolution magnetic resonance imaging of the anterior visual pathway in patients with optic neuropathies using fast spin echo and phased array local coils **562**
Organic dysfunction, Shared delusions of doubles **499**
Osteogenesis imperfecta, Trigeminal neuralgia associated with osteogenesis imperfecta **665**
Outcome
Outcome in conversion disorder **750**
Outcome in patients with large intraventricular haemorrhages **622**

Paediatric, Complex disorders of the paediatric craniocervical junction **118**
Painless ischaemic lumbosacral plexopathy, Painless ischaemic lumbosacral plexopathy and aortic dissection **641**
Papilloedema, Papilloedema and lymphocytic meningitis in a 68 year old man **374**
Paraneoplastic cerebellar degeneration, Long term course of change in anti-Yo antibody content in paraneoplastic cerebellar degeneration **256**
Parkinson's disease
Anticipatory postural adjustments during self inflicted and predictable perturbations in Parkinson's disease **326**
Debrisoquine hydroxylase gene polymorphism in Parkinson's disease and amyotrophic lateral sclerosis **109**
Electroconvulsive therapy for the physical signs of Parkinson's disease without depressive disorder **641**
Hemiballism in Parkinson's disease **645**
Neuropsychological pattern of striatonigral degeneration **174**
Parkinson's disease **392**
Pen injected apomorphine against off phenomena in late Parkinson's disease **681**
Risperidone in Parkinson's disease **521**
Survival and cause of death in a cohort of patients with parkinsonism **293**
Which factors predict cognitive decline in Parkinson's disease? **51**
Parkinsonism
Exacerbation of postural tremor with emergence of parkinsonism after treatment with neuroleptic drugs **487**
Magnetic resonance spectroscopic study of parkinsonism related to boxing **688**
Paroxysmal dystonia, Painful paroxysmal dystonia associated with focal epileptic activity **257**
Parsis, Multiple sclerosis in the Parsis **254**
Partial epilepsy, Magnetic resonance imaging in partial epilepsy **439**
Pathology, Acute necrotising encephalopathy of childhood **555**
Percutaneous endoscopic gastrostomy, Motor neuron disease **269**
Peridural fibrosis, Pathogenesis of peridural fibrosis—a macroscopic, microscopic, and in situ hybridisation study **117**
Peripheral neuropathy, Investigation of peripheral neuropathy **274**
Peritumoural oedema, Changes in proton MRS of peritumoural oedema before and after dexamethasone **121**
PET, Use of PET in evaluating patients with primary brain tumours **250**
Phased array coil, High resolution magnetic resonance imaging of

the anterior visual pathway in patients with optic neuropathies using fast spin echo and phased array local coils **562**
Phenol, Treatment of spasmodic torticollis with intramuscular phenol injection **258**
Pholedrine, Pholedrine **215**
Photodynamic treatments, Further in vitro studies of the effects of photodynamic treatment in meningiomas **390**
Pilocyte astrocyloma, Transient amnestic syndrome after spontaneous haemorrhage into a hypothalamic pilocytic astrocytoma **761**
Plasma melatonin, Abnormal circadian rhythms of plasma melatonin and body temperature in the delayed sleep phase syndrome **379**
Platelet derived growth factor, Expression of platelet derived growth factor and platelet derived growth factor receptor mRNA in a glioblastoma from a patient with Li-Fraumeni syndrome **711**
Polyneuropathy
Body sway and vibration perception thresholds in normal aging and in patients with polyneuropathy **335**
Bromate intoxication with polyneuropathy **516**
Pontine ischaemia, Volitional type of facial palsy associated with pontine ischaemia **732**
Pontomedullary junction, Raymond syndrome (alternating abducent hemiplegia) caused by a small haematoma at the medial pontomedullary junction **261**
Positron emission tomography
Alien hand syndrome without a corpus callosum lesion **735**
Dementia associated with bilateral carotid occlusions **633**
Imaging the head **132**
Post-thyroidectomy hypoparathyroidism, Musical hallucinations associated with post-thyroidectomy hypoparathyroidism and symmetric basal ganglia calcifications **763**
Post-traumatic syringomyelia, Post-traumatic syringomyelia **520**
Post-traumatic unawareness, Outcome of post-traumatic unawareness persisting for more than a month **465**
Posterior primary ramus, Lateral branch of the posterior primary ramus—key for the posterolateral approach to extreme lateral lumbar disc herniations **117**
Postoperative haematoma, Avoidable risk factors and postoperative haematoma **116**
Postural tremor, Exacerbation of postural tremor with emergence of parkinsonism after treatment with neuroleptic drugs **487**
Predictive factors, Multivariate analysis of predictive factors of multiple sclerosis course with a validated method to assess clinical events **300**
Prefrontal cortex, Agraphia and acalculia after a left prefrontal (F1, F2) infarction **629**
Pregnancy, Stroke in pregnancy and the puerperium **129**
Prepulse inhibition, Impaired prepulse inhibition of acoustic and tactile startle response in patients with Huntington's disease **192**
Prevalence survey
Multiple sclerosis in island populations **22**
Prevalence survey of multiple sclerosis in Sussex **27**
Prevalence
Epilepsy in a population of 6000 re-examined **570**
Prevalence of multiple sclerosis in the region of Osona, Catalonia, northern Spain **577**
Primary lateral sclerosis, Motor neuron disease (amyotrophic lateral sclerosis) arising from longstanding primary lateral sclerosis **742**
Prion protein gene, Inherited Creutzfeldt-Jakob disease in a British family associated with a novel 144 base pair insertion of the prion protein gene **65**
Prion protein, Case of progressive subcortical gliosis associated with deposition of abnormal prion protein (PrP) **759**
Profound hypotension, Experimental model of global cerebral ischaemia induced by profound hypotension based on a computer driven closed loop system **387**
Prognosis
Epilepsy in a population of 6000 re-examined **570**
Loss of heterozygosity for DNA polymorphisms mapping to chromosomes 10 and 17 and prognosis in patients with gliomas **218**
Prognostic factors for survival in multiple sclerosis **417**
Progressive neuronal degeneration of childhood, Progressive neuronal degeneration of childhood with liver disease (Alpers' disease) presenting in young adults **320**
Progressive supranuclear palsy
J C Steele's reflections on progressive supranuclear palsy **710**
Neuropsychological pattern of striatonigral degeneration **174**
Progressive supranuclear palsy **167**
Propranolol, Propranolol in startle induced epileptic seizures **382**
Proton magnetic resonance spectroscopy, Serial proton magnetic resonance spectroscopy in a patient with the interval form of carbon monoxide poisoning **100**
Proton spectroscopy, Assessment of altered cerebral metabolism associated with arteriovenous malformations using in vivo proton MR imaging and water suppressed localised proton spectroscopy **391**
Psychiatry, Psychiatry and neuropathology **284**
Psychogenic myoclonus, Presence of Bereitschaftspotential preceding psychogenic myoclonus **745**
Psychosocial factors, Psychosocial factors in chronicity of epilepsy **112**
Pupillary dilatation, Pupillary dilatation and arm weakness as negative ictal phenomena **261**

Radiosurgery, Clinical outcome and haemodynamic type of cerebral arteriovenous malformations treated with LINAC radiosurgery **122**
Raised intracranial pressure, Hearing loss as a false localising sign in raised intracranial pressure **516**
Rasmussen's syndrome, Multiple subpial transection **344**
Rating scales, Continuous response variable trial design in motor neuron disease **201**
Raymond syndrome, Raymond syndrome (alternating abducent hemiplegia) caused by a small haematoma at the medial pontomedullary junction **261**
Receiver operator characteristics curves
Receiver operator characteristics (ROC) curves **386**
ROC curves **386**
Recognition deficits, Ettlinger revisited **350**
Recovery, Prescribing of potentially harmful drugs to patients admitted to hospital after head injury **753**
Reference, Neglect of radial and vertical space **724**
Repetitive magnetic stimulation, A new treatment of spasticity with repetitive magnetic stimulation in multiple sclerosis **254**
Respiratory system, Electrophysiological study of diaphragmatic myoclonus **480**
Retinotopic, Neglect of radial and vertical space **724**
Rhabdomyolysis, Rhabdomyolysis and acute encephalopathy in late onset medium chain acyl-CoA dehydrogenase deficiency **209**
Rheumatoid cervical spine, Does surgery on the rheumatoid cervical spine benefit the bed bound, non-ambulatory (ranawat 3b) myelopath? 3b or not 3b? **118**
Rickham reservoir, Comparison of rates of infection of two methods of emergency ventricular drainage **444**
Risk factors
Avoidable risk factors and postoperative haematoma **116**
Stroke in pregnancy and the puerperium **129**
Risperidone, Risperidone in Parkinson's disease **521**
Roman trepanning, Roman trepanning **389**

Sarcoidosis, Oligoclonal banding of IgG in CSF, blood-brain barrier function, and MRI findings in patients with sarcoidosis, systemic lupus erythematosus, and Behçet's disease involving the nervous system **548**
Schizophrenia
Hypofrontality revisited **452**
Meta-analysis of corpus callosum size in schizophrenia **457**
Sciatic nerve, Focal conduction block in compression neuropathy of the proximal sciatic nerve **471**
Secular trends, Epilepsy in a population of 6000 re-examined **570**
Seizure prevention, Randomised double blind study of sodium valproate for the prevention of seizures in neurosurgical patients **116**
Selective epileptic gait disorder, Selective epileptic gait disorder **371**
Sensorimotor neuropathy, Peripheral neuropathy associated with simvastatin **625**
Simvastatin, Peripheral neuropathy associated with simvastatin **625**
Single photon emission computed tomography
Imaging the head **132**
Inter-relation between "classic" motor neuron disease and frontotemporal dementia **541**
Single photon emission computed tomography in systemic lupus erythematosus with psychiatric symptoms **307**
Single photon emission tomography
Hypofrontality revisited **452**
Unilateral hypotonic seizures successfully diagnosed by ictal

SPECT with technetium-99m-HMPAO in a patient with a brain tumour **509**
Sjögren's syndrome, Chronic dacryosialadenitis in HTLV I associated myelopathy **244**
Skeletal muscle EMG, Nerve conduction studies, skeletal muscle EMG, and sphincter EMG in multiple system atrophy **618**
Skeletal muscle graft, Intracranial repair of the facial nerve using a freeze-thawed muscle graft **386**
Sleep disturbances, REM sleep behaviour disorder as the presenting symptom of multiple system atrophy **379**
Sleep onset REM sleep, Hypersomnolence in myotonic dystrophy **512**
Sleep, Sleep abnormalities in traumatic apallic syndrome **484**
Small cerebral arteries, Effects of ischaemia and reperfusion on the pharmacological responses of small cerebral arteries **389**
Sodium valproate, Randomised double blind study of sodium valproate for the prevention of seizures in neurosurgical patients **116**
Somatisation, Somatisation in neurological practice **393**
Sonography, Imaging the adult brain **7**
Spasmodic torticollis, Treatment of spasmodic torticollis with intramuscular phenol injection **258**
Spasticity
New treatment of spasticity with repetitive magnetic stimulation in multiple sclerosis **254**
Treatment of chronic limb spasticity with botulinum toxin A **232**
SPECT
Ictal SPECT as a localising investigation in extratemporal epilepsies **119**
Thallium and HMPAO SPECT evaluation of malignant brain tumours **121**
Sphincter EMG, Nerve conduction studies, skeletal muscle EMG, and sphincter EMG in multiple system atrophy **618**
Spinal accessory-facial nerve anastomosis, Partial restoration of blink reflex function after spinal accessory-facial nerve anastomosis **222**
Spinal cord, Cystic spinal cord **649**
Spinal somatosensory potential, Spinal somatosensory potential monitoring in three cases of neurological deterioration after laminectomy for cervical spondylotic myelopathy **113**
Spinocerebellar tracts, Miller Fisher-Guillain-Barré overlap syndrome with enhancing lesions in the spinocerebellar tracts **241**
Stamps
Atropia belladonna (deadly nightshade) **283**
Datura stramonium (Jimsonweed) **654**
Humulus lupulus (hop) **152**
Mistletoe **6**
Papaver somiferum (opium poppy) **402**
Rauvolfia sevenetii (moonshine plant) **547**
Startle reflex, Somatosensory evoked blink response **95**
Startle response, Impaired prepulse inhibition of acoustic and tactile startle response in patients with Huntington's disease **192**
Status epilepticus, Increase in adenosine metabolites in human cerebrospinal fluid after status epilepticus **513**
Stereotactic leukotomy, Changes in metabolism of cerebral glucose after stereotactic leukotomy for refractory obsessive-compulsive disorder **502**
Stereotactic surgery, Frameless stereotactic surgery for neocortical lesional epilepsy **120**
Streptokinase infusion, Progressive dural venous sinus thrombosis treated with local streptokinase infusion **107**
Stretch, Transcranial Doppler and angiographic findings in adolescent stretch syncope **367**
Striatonigral degeneration
Clinicopathological study of 35 cases of multiple system atrophy **160**
Neuropsychological pattern of striatonigral degeneration **174**
Stroke
Headache at stroke onset **490**
Neurology in literature **705**
Stroke in pregnancy and the puerperium **129**
Subarachnoid haemorrhage
Detection of subarachnoid haemorrhage on early CT **357**
How good is good on the Glasgow outcome scale after subarachnoid haemorrhage? **122**
Magnetic resonance angiography in the management of aneurysmal subarachnoid haemorrhage **118**
Management of aneurysmal subarachnoid haemorrhage in the north western region **391**
Noradrenaline concentrations and electrocardiographic abnormalities after aneurysmal subarachnoid haemorrhage **614**
Outcome in patients with large intraventricular haemorrhages **622**
Prospective randomised trial of efficacy of tirilazad mesylate in patients with subarachnoid haemorrhage **119**
What is the relevance of the endothelins in subarachnoid haemorrhage? **392**
Subclinical CNS involvement, Single photon emission computed tomography in systemic lupus erythematosus with psychiatric symptoms **307**
Subcortical gliosis, Case of progressive subcortical gliosis associated with deposition of abnormal prion protein (PrP) **759**
Sudden death, Incidence of sudden unexpected death in an adult outpatient cohort with epilepsy at a tertiary referral centre **462**
Sumatriptan, Sumatriptan and daily headache **510**
Surveys, Surveying multiple sclerosis in the United Kingdom **2**
Sydenham, Thomas
Thomas Sydenham "The British Hippocrates" **292**
Thomas Sydenham and Richard Bright on chorea **319**
Synaptic reorganisation, Partial restoration of blink reflex function after spinal accessory-facial nerve anastomosis **222**
Syncope, Transcranial Doppler and angiographic findings in adolescent stretch syncope **367**
Syringomyelia
Outcome of post-traumatic syringomyelia **124**
Syringomyelia **124**
Systemic lupus erythematosis, Oligoclonal banding of IgG in CSF, blood-brain barrier function, and MRI findings in patients with sarcoidosis, systemic lupus erythematosus, and Behçet's disease involving the nervous system **548**
Systemic lupus erythematosus, Single photon emission computed tomography in systemic lupus erythematosus with psychiatric symptoms **307**

Taenia solium, Single parenchymal brain cysticercus in the acute encephalitic phase **247**
Tardive dyskinesia, Successful treatment of intractable tardive dyskinesia with botulinum toxin **511**
Temporal lobe surgery, Preoperative EEG predicts memory and selective cognitive functions after temporal lobe surgery **674**
Temporal lobe, Surgical treatment of temporal lobe epilepsy **666**
Temporal neocortex, Resection of the pathological substrate in the temporal neocortex **119**
Tethered cord syndrome, Operative treatment of the tethered cord syndrome **124**
Thalamotomy, Review of thalamotomy **120**
The head, Imaging the head **132**
Therapeutic trials, Continuous response variable trial design in motor neuron disease **201**
Thrombolytic treatment, Thrombolytic treatment for acute occlusion of the basilar artery **227**
Thymoma, Limbic encephalitis and immunological perturbations in two patients with thymoma **706**
Tirilazad mesylate
Changes in microvascular permeability in a rodent model of focal cortical injury using ^{14}C AIB autoradiography **119**
Prospective randomised trial of efficacy of tirilazad mesylate in patients with subarachnoid haemorrhage **119**
Tissue plasminogen activator, Intraventricular recombinant tissue plasminogen activator for lysis of intraventricular haemorrhage **447**
Tourette's syndrome, Advance information and movement sequencing in Gilles de la Tourette's syndrome **184**
Transient amnestic syndrome, Transient amnestic syndrome after spontaneous haemorrhage into a hypothalamic pilocytic astrocytoma **761**
Traumatic coma, Event related potentials in the assessment of traumatic coma **387**
Trigeminal nerve compression, Preoperative diagnosis of neurovascular compression of the trigeminal nerve using magnetic resonance tomoangiography **120**
Trigeminal neuralgia, Trigeminal neuralgia associated with osteogenesis imperfecta **665**
Trigeminal sensory neuropathy, Neurotropic malignant melanoma presenting as a trigeminal sensory neuropathy **381**
Trophic factors, Method for continuous infusion of trophic factors into rat spinal subarachnoid space **388**
Tuberculous myelopathy, Tuberculous myelopathy **259**
Tunnelled ventriculostomy, Comparison of rates of infection of two methods of emergency ventricular drainage **444**

Ultrasound, Ultrasonic evaluation of movement of the diaphragm after acute cerebral infarction **738**

United Kingdom, Surveying multiple sclerosis in the United Kingdom **2**
Upper limb trajectories, Kinematic properties of upper limb trajectories in idiopathic torsion dystonia **312**
Uveitis, Local IgG production in aqueous humour in patients with idiopathic uveitis compared with MRI findings **758**

Vascular death, Leukoaraiosis and cause of death **586**
Vascular dementia, Dementia associated with bilateral carotid occlusions **633**
Vascular disease, Proceedings of the winter meeting of the British Neuropsychiatric Association, London Zoo (Regent's Park, 20 January 1995) **643**
Ventilation, Prognosis of deeply comatose patients on ventilators **75**
Ventriculostomy, Intraventricular recombinant tissue plasminogen activator for lysis of intraventricular haemorrhage **447**
Venular blood-brain barrier, Reversed drainage of brain interstitial fluid through venular blood-brain barrier **122**
Verbal fluency, Verbal fluency in dementia of frontal lobe type and dementia of Alzheimer type **81**
Vertebral artery, Transcranial Doppler and angiographic findings in adolescent stretch syncope **367**
Vibration perception, Body sway and vibration perception thresholds in normal aging and in patients with polyneuropathy **335**
Visual hallucinations, Elementary visual hallucinations in migraine and epilepsy **518**
Visual neglect, Is visual neglect body-centric? **262**
Visual sensory tests, Ettlinger revisited **350**
Visuomotor tracking, Damage to cerebellocortical pathways after closed head injury **433**
Visuospatial neglect, Different criteria in the assessment of visuospatial neglect **114**
Volitional facial paresis, Volitional type of facial palsy associated with pontine ischaemia **732**
Voltage-gated calcium channel, Improved diagnostic assay for Lambert-Eaton myasthenic syndrome **85**
Voluntary movement, Anticipatory postural adjustments during self inflicted and predictable perturbations in Parkinson's disease **326**

Wasp sting, Bilateral pallidostriatal necrosis caused by a wasp sting **474**
World Health Organisation, Handicap one year after a stroke **268**
